DETAILED ACTION

Election/Restrictions

Claims 1, 14 and 22 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 8-12, 19-21, directed to the non-elected embodiments are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest to combine a tunable laser with a fiber grating and a controller to adjust the difference between the lasing wavelength and the grating wavelength by controlling the laser diode and the fiber grating. While the devices that control the wavelength of the laser diode and devices that control the reflectivity of the fiber grating are known in the art, there is no motivation to combine them together in a device that reduces the relative intensity noise of a fiber grating type laser diode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
